

SET A SMART-PI GOAL:

Examples:

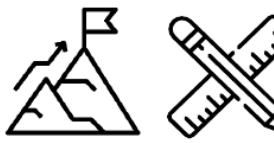

"I want to increase the customers of my coffee shop by 30% per month by offering ice cream with homemade cones from September.

"I want to reduce my electricity bill by 20% per month by buying a solar parabolic cooker to pasteurise my natural juices from next month onwards.

Habakkuk 2:2

- And the Lord answered me: “Write the vision; make it plain on tablets, so he may run who reads it.

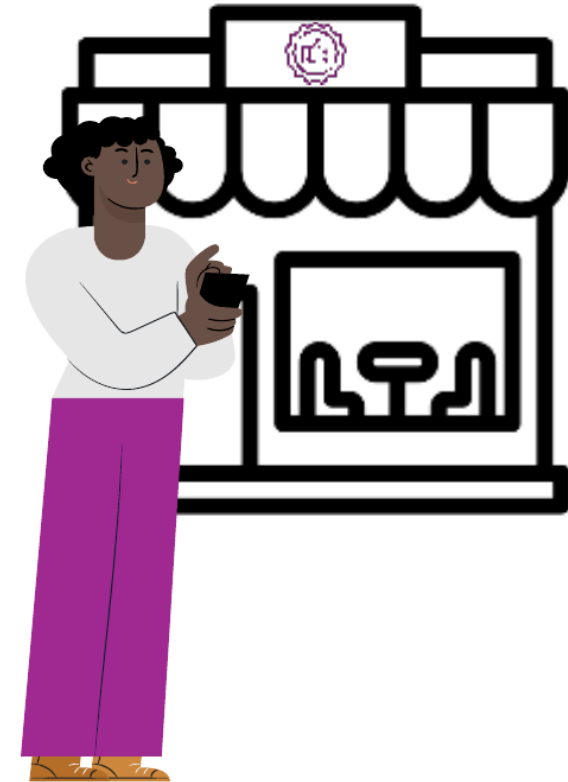

EXERCISE: Rephrasing the Objectives

After several jobs in the food industry, Frank wants to start a catering service. He has drawn up a plan in which he identifies an objective for his business: 'I want to become the most famous restaurant in my region '.

Instruction:

Form **groups of three (03) people** to work on this exercise. Apply the SMART-PI principles. Answer the following questions:

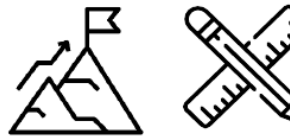

1. What criteria (**SMART-PI**) **does** Frank's objective meet?
2. Does Frank's objective show enough personal initiative?
3. How could he reformulate his objective to meet the SMART-PI criteria?

EXERCISE :

Set a Goal for Your Business

Instruction I:

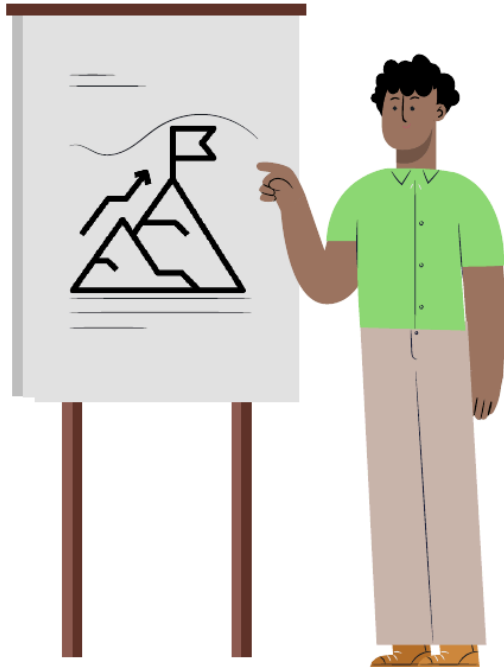

1. Set a goal you want to achieve in four (04) months. You could e.g. follow one of the entrepreneurial ideas you identified earlier (WS 12)
2. Then assess your goal against the "Set a: SMART-PI goal". Rewrite your goal if necessary.
3. In addition, answer these two questions on the worksheet:
 - How will you assess whether you have achieved the goal (e.g. look for negative feedback)?
 - When will you assess whether you have reached your goal (exact date)?

EXERCISE :

Set a Goal for Your Business

Instruction II:

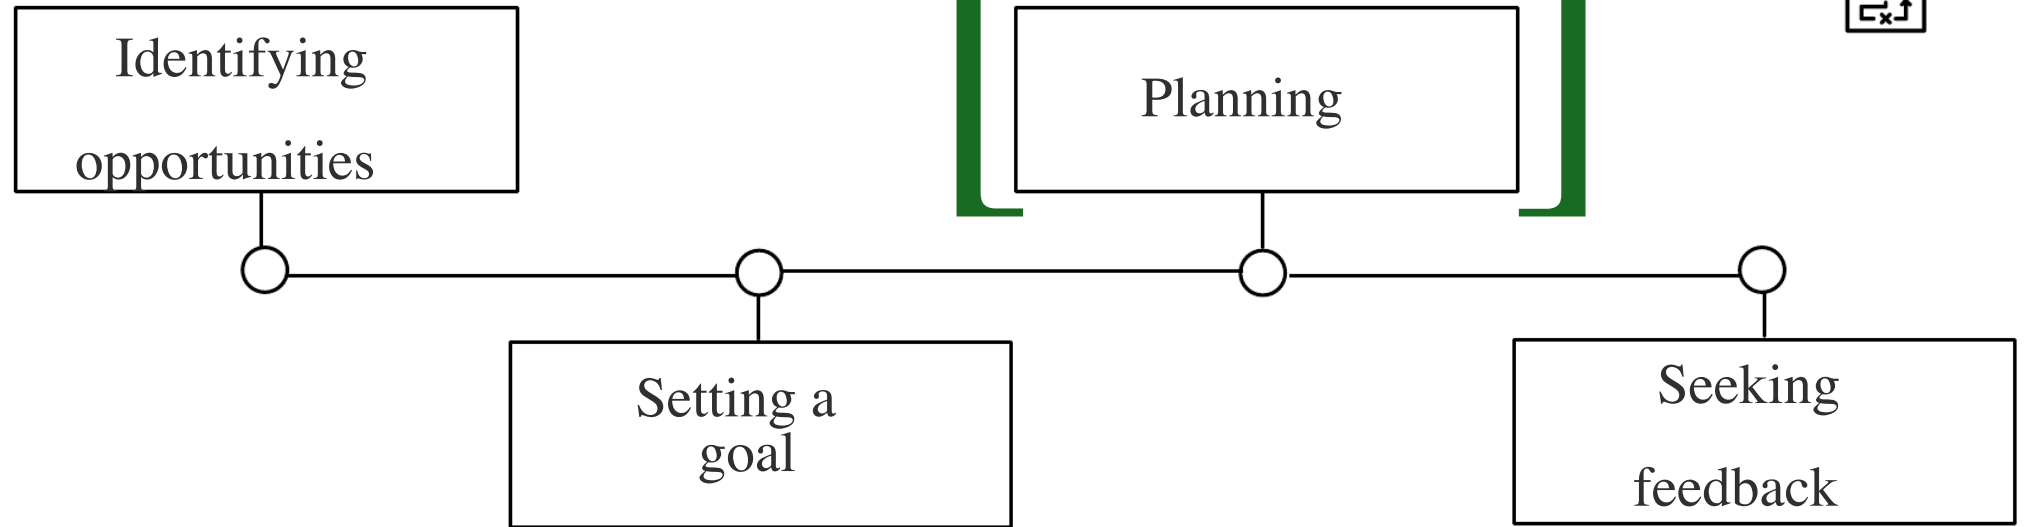

4. Present your goal to a partner and listen to their goal.
Give feedback. When giving feedback, think about this:
- Is its purpose "SMART-PI"?
 - Is its purpose **really new** in its context?
 - Does it target **future opportunities**?

Review the "setting a goal" self-assessment questionnaire.

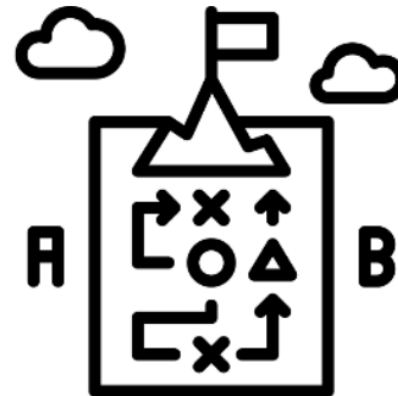

Mark the points you want to improve.
