

|NOT Looking into the Future

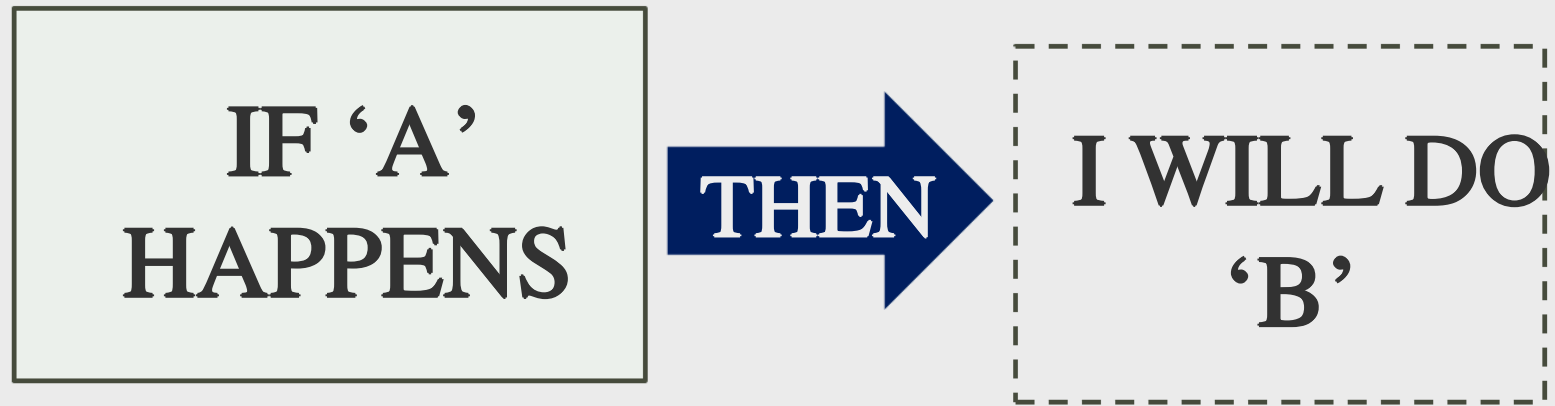

- The Lost Son did not look into the future when he took his inheritance and spent every last penny
- The result? He was left starving among pigs who were better fed than he...

Luke 15: 11-32

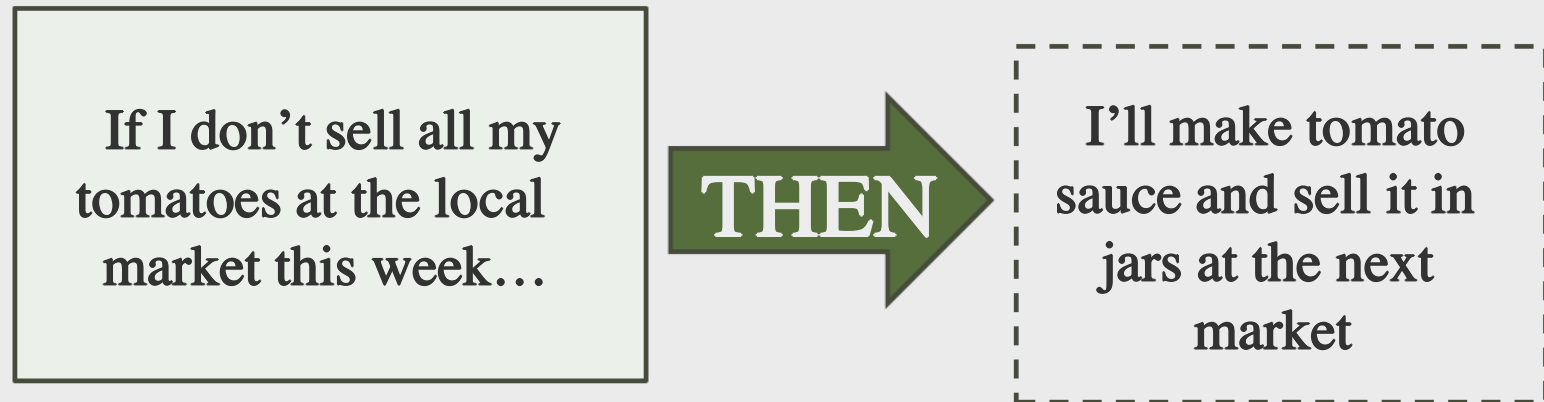

WHAT YOU NEED TO DO

If 'A' then 'B' Reasoning Technique

Example:

If 'A' happens then I'll do 'B'

- Joab was fighting the Arameans with his brother Abishai and their army of hired Ammonites
- Joab reasoned and said to Abishai 'if 'A' happens - one of the foes is too strong - then 'B' - the other one comes to their rescue

WHAT YOU NEED TO DO

Being Future-Oriented

Example to anticipate **OPPORTUNITIES** using the "if A, then B" technique:

- If the road to Nairobi is upgraded at the end of the year...
 - ...I will look for suppliers in the city who offer a lower price or higher quality.
 - ...I will join an association of entrepreneurs
 - ...I will plan to offer my products in Nairobi as the transport is faster and cheaper

Example to anticipate **BARRIERS** using the "if A, then B" technique:

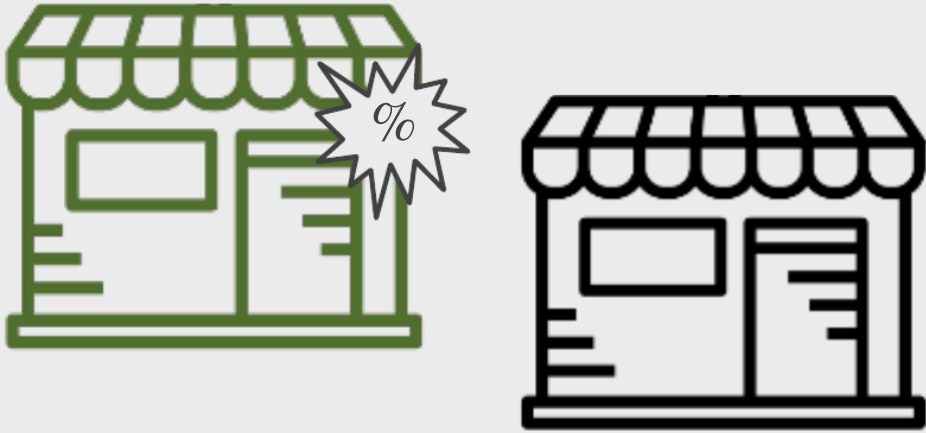

If the electricity company cuts the power again next week...

- ...I will use my own generator or share one with others.
- ...I'll have a machine at hand that doesn't need electricity for this.
- ...I will have as many spare parts in stock as I need to produce until the power comes back on.

EXAMPLE

Being Future-Oriented

Example to anticipate long-term CONSEQUENCES

Karobia runs a kiosk near a school. His customers are mainly students and teachers. He's been successfully running his business for a few years. A few weeks before the start of the school year, Karobia learns about a new restaurant opening right next to his kiosk. He's afraid students and teachers will buy from the new competitor, so he decides to reduce the prices of almost all his items.

In fact, Karobia gains some customers. But at the end of the school year, he finds he's made a huge loss.

What did Karobia do wrong?

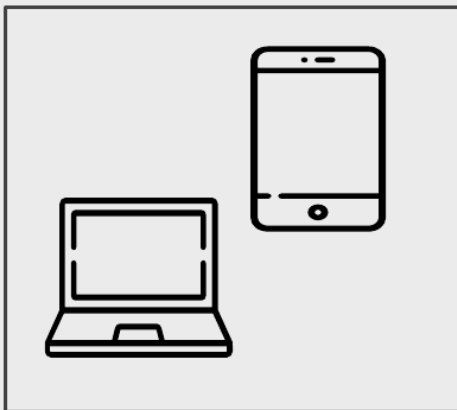

EXERCISE: Preparing for changes in the environment

Instruction:

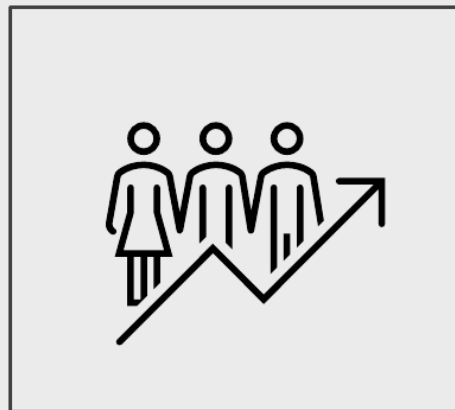

1. Note current and future technological changes, demographic changes and social trends in Kenya. Think of as many changes, small or large, as possible.

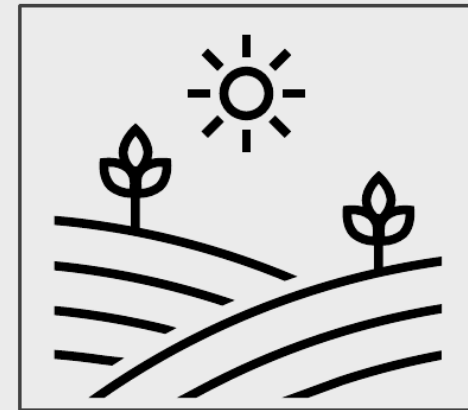

TECHNOLOGICAL CHANGES

DEMOGRAPHIC AND SOCIAL CHANGES

OTHER CHANGES

GET READY FOR CHANGE

- The seven years of abundance in Egypt came to an end, and the seven years of famine began, just as Joseph had said. There was famine in all the other lands, but in the whole land of Egypt there was food.

Genesis 41: 47-49 & 53-57

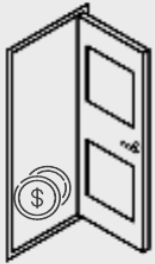

EXERCISE: Preparing for Changes in The Environment

Instruction:

2. Work in **groups of 04 or 05**. Select a change, and a business/idea _____ from a member of your group. Discuss the following questions:

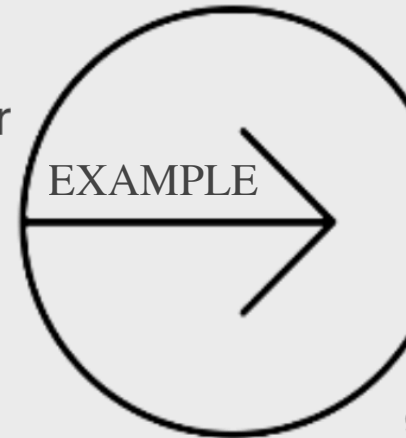

- o What are the potential **opportunities** for the business arising from this change? List at least 3 opportunities.
- o What are the potential **barriers** for the business arising from this change? List at least 3 barriers.

3. Choose a potential opportunity, and a barrier. Note the required to take advantage of the opportunity, and to a overcome the barrier

4. Remember the if 'A' then 'B' technique

steps
void or

EXAMPLE: Preparing for Changes in the Environment

Example:

- o Change: Rising Cost of Food
- o Company: Njoroge's Food Store

Potential opportunities:

Cut out middlemen and buy some items from
producers

Potential barriers:

Idea can be copied by other retailers

EXERCISE: Preparing for Changes in The Environment

PREPARE FOR CHANGES IN THE ENVIRONMENT.
